NORVIA BACKOFFICE
ProvisionTenantAdmin Sandbox API Signature
Version 1.1 | 24 October 2026

PURPOSE
This sandbox endpoint supports standalone Norvia Backoffice course delivery when no product platform-specific provisioning API is available. It returns a newly generated unique GUID on every call and does not persist data.

ENDPOINT
Method: POST
URL: https://labs.lowcademy.com/intelli-backoffice/ProvisionTenantAdmin.php
Content-Type: application/json

HEADER PARAMETERS
key: 1b43f437-71db-4a41-99fe-3b731257b547
secret: 61a6ff82-a697-48dd-a760-13e6e69a6586

REQUEST BODY
TenantID integer required Numeric tenant identifier
UserName string   required Full/display name of the tenant administrator
Email   string   required Tenant administrator email address
RoleID   integer required Numeric product role identifier

Example request
```
{
  "TenantID": 101,
  "UserName": "Ada Lovelace",
  "Email": "ada@example.com",
  "RoleID": 2
}
```

RESPONSE BODY
IsError boolean false for the sandbox success response
Message string   Human-readable result
UserID   string   Newly generated UUID/GUID for the simulated product user

Example response
```
{
  "IsError": false,
  "Message": "Tenant administrator provisioned successfully.",
  "UserID": "782dfa7b-2e66-4db6-a7cb-70271ff49586"
}
```

APPLICATION REQUIREMENT
After a successful response, Norvia Backoffice must write the returned UserID to UserExtended.OutSystemsUserId for the existing local tenant administrator. Do not create a second UserExtended record. Provision Status is Provisioned when OutSystemsUserId contains a value.

CURL EXAMPLE
```
curl -X POST https://labs.lowcademy.com/intelli-backoffice/ProvisionTenantAdmin.
php
  Header: Content-Type: application/json
  Header: key: 1b43f437-71db-4a41-99fe-3b731257b547
  Header: secret: 61a6ff82-a697-48dd-a760-13e6e69a6586
  Body: {"TenantID":101,"UserName":"Ada Lovelace","Email":"ada@example.com","Rol
eID":2}
```

PRODUCT PLATFORM-SPECIFIC OPTION
When a real product is involved, obtain its API Signature Document from the API provider and implement that provider's documented contract.
